Global Smile Foundation

Every child deserves access to world-class cleft care.

Global Smile Foundation partners with hospitals and healthcare providers in low- and middle-income countries to ensure children born with cleft lip and palate have access to world-class care.

For nearly 40 years, we've delivered comprehensive cleft care that extends beyond surgery while strengthening local healthcare systems through education, training, and research. Together with our partners, we're building the expertise and capacity that allows more children and families to receive high-quality care for generations to come.

That commitment is guided by a simple belief: **Every child deserves the same quality of care we would want for our own children, regardless of where they are born.**

Donations can be mailed to:
